

PASSION FOR CONSERVATION ISN'T
JUST TAUGHT, IT'S EXPERIENCED

2026 MARINE SCIENCE SUMMER CAMP

Emerald & Forgotten Coast Adventures will be hosting 4 weeks of summer camp for middle school students to immerse them in the world of marine science and expose them to different conservation career pathways. Our host sites will be St. Andrews State Park & Camp Helen State Park. Campers will be snorkeling in seagrass beds, collecting scientific data, meeting environmental professionals, kayaking a coastal dune lake, learning about the incredible biodiversity that thrives in and around our coastal waters, and making a difference through volunteer projects. Campers will be nominated by their current science teacher to participate in this unique hands-on experience. Only 22 Campers per Session will be selected, totaling up to 88 campers.

Camper Cost: \$300 (includes camper registration fee, on & off-site field excursions, E&FCA Sunshirt, Snorkel Gear, and lunch/snacks/hydration daily)

Sponsorship Request: We are seeking sponsorships to cover the additional cost. See below for specific support opportunities.

NEW

Leader In Training Program

NEW this summer - we plan to establish a Leader-in-Training (LIT) Program for high school students, offering service hours, leadership development, mentorship experience, and hands-on work alongside camp counselors.

Students will be working with our Marine Science Summer Camp. 1-2 Students will be selected to assist with each session.

Upon completion, each LIT will receive a scholarship to pursue further education in the field. Funding for the scholarship initiative is needed.

OUR FUND GOAL: \$5000

ACQUIRED TO DATE: \$1000 from Eastern Shipbuilding Charities Inc.

Will you join them in supporting local high school students?
